What is a Continuum of Care?

A CoC consists of a partnership of service & resource providers, housing developers, state agencies, and others in the homelessness or low-income service system in a geographic region. CoCs monitor and address housing and service gaps through proactive solutions; Conduct an annual homeless count; Coordinate efforts with the statewide planning body.

The 2 HUD-recognized CoCs are planning *and* funding bodies, while Local CoCs are solely planning bodies that coordinate efforts to prevent and address homelessness.

Key partners include representatives from the Youth, Veterans and Victims of Domestic & Sexual Violence service provider communities.
