

VERMONT BALANCE OF STATE CONTINUUM OF CARE

Addressing Racial Disparities in Homelessness Systems

<https://www.hudexchange.info/resource/5787/coc-analysis-tool-race-and-ethnicity/>

Each community has unique circumstances impacting homeless populations. The CoC Analysis Tool draws on Point-In-Time (PIT) Count and American Community Survey data to facilitate analysis of racial disparities among people experiencing homelessness. Such an analysis is a critical first step in identifying and changing racial and ethnic bias in our systems and services.

The number of people experiencing homelessness represented in this tool is drawn from the 2017 PIT Count data reported in the Annual Homeless Assessment Report (AHAR) to the U.S Congress. PIT Counts are unduplicated 1-night estimates of sheltered and unsheltered homeless populations conducted by CoCs nationwide during the last week of January each year.

*Youth are individuals under the age of 25 who are unaccompanied or parenting.

Distribution of Ethnicity
