SECTION 2A: LIVING SITUATION

The following questions will help us to figure out how best to help you. Answering these questions can help us find housing that best fits your needs, access resources and provide you with referrals to other supports. It's very important that you answer honestly. Some of the questions are personal, and you may choose to skip any of the questions.

Before we go further, I want to let you know that we do not discriminate based on race, color, national origin, religion, disability, familial status, marital status, age, sexual orientation, gender identity, or receipt of public assistance.

I also want to let you know that we will keep the information you share confidential, and only share what is needed to coordinate housing and service needs when you give us permission. I'll review a Release form with you at the end of this assessment, and you can choose how you want this information to be shared and with what agencies.
